

# What are the **four training pathways** on Intangible Assets / Intellectual Property for Singapore Public Officers?

## — FOUNDATION —

The foundation IP Management Course for Public Agencies equips public officers with fundamental knowledge in IP and IP management.

# Training Pathways

## What you need to know

### WHY learn about IP?

Public officers increasingly work with IP. It is important to learn to manage these IP, such as copyright, trade marks, and patents.

More than **5,000** public officers have undergone IP training with us.

### WHAT will I learn?

**Foundation Course:** Learn the types of IP, regulations and common IP issues, how to manage IP, and more.

**Specialisation Courses:** Learn IP management issues specific to your industry or job field (e.g. IP in education sector or in procurement).

### WHEN and WHERE are the courses run?

**When:** Run every few months, so you can find a suitable slot.

**Where:** At IPOS International.

### HOW MUCH will this cost?

From \$481.50 (incl. GST).

### WHERE can I find out more information?

Learn more at [www.iposinternational.com](http://www.iposinternational.com).

You can also contact us at 6330 8660 for more info.

## Course Details

### TRAINING PATHWAY

### RECOMMENDED COURSES

#### **Intellectual Property (IP) / IP Management Course for Public Agencies**

This is a foundation programme recommended for all Civil Servants and Public Officers across Public Service who handle matters involving Intellectual Property (IP) or encounter IP/ IP Management issues in their course of work.

#### **Avoiding Copyright Infringement for Public Officers**

Recommended for Civil Servants and Public Officers who are looking to gain knowledge about government policies around copyright, better understand copyright ownership, types of copyright licenses, common defences / legal exceptions to copyright infringement, managing copyright risks, and how to conduct copyright clearance.

#### **Navigating IP Issues in R&D Collaborations**

Recommended for Civil Servants and Public Officers who handle matters involving IP in R&D. This course addresses the IPM considerations that arise in R&D collaborations.

#### **IP Management in R&D - Understanding NIPP and MRCA**

This course focuses on the stewardship of IP development and its usage by public agencies. Public officers will learn to familiarise themselves with the principles of the National IP Protocol (NIPP) and common agreed terms in the Master Research Collaboration Agreement (MRCA).
